

UNIVERSITY OF WALES TRINITY SAINT DAVID LONDON

LEB Education is recruiting international students on behalf of University of Wales Trinity Saint David London, students can choose one of the following programmes:

- **Doctor of Business Administration (DBA)**
- **Master of Business Administration (MBA)**
- **BA (Hons) Business Management**
- **BSc (Hons) Management and Information Technology**

Doctor of Business Administration (DBA)

The Doctor of Business Administration (DBA) is a professional doctorate which provides a structured programme of study through taught modules, closely integrated with an individual's professional career development. It is widely recognised as the pinnacle of qualifications in the world of business and management. This DBA programme is designed to meet the needs of professionals working in Business Administration and Management related areas in the UK and international markets.

Master of Business Administration (MBA)

This one year programme is divided into three terms. Students can join in February, June or October. The Programme (except General Management) is composed of four compulsory modules, two specialism modules specific to the chosen pathway and a dissertation. Each taught module is worth 20 credits and the dissertation is worth 60 credits. Successful students achieve 180 credits over the Programme. The General Management programme is composed of five compulsory modules, one optional module (to be chosen from among three modules) and a dissertation.

SPECIALISM PATHWAYS

Specialism pathways include:

- MBA Banking and Finance
- MBA Entrepreneurship
- MBA Human Resource Management
- MBA Information Management
- MBA Marketing
- MBA General Management

BA (Hons) Business Management

This programme is an ideal insight into the fast-moving world of business today. It has been designed to provide you with the skills and knowledge needed to succeed within the public, private or third sector.

The BA (Hons) Business Management is an up-to-date and broad-ranging course. In addition to offering the main traditional topic areas such as marketing, human resource management and finance, the course features fresh, modern and contemporary issues such as Business ethics and social responsibility, e-business, entrepreneurship and enterprise.

BSc (Hons) Management and Information Technology

This programme provides an understanding and appreciation of the use of computers and IT in the present-day business environment. The core modules develop the fundamentals of IT and business information systems throughout the three years to a point where the role of IT is examined from the social, technical and management perspectives.
